🐙 [GitHub](#)

Professional Summary

IT Analyst with experience in **Major Incident Management, IT Operations, Middleware Support, and SQL database technologies**. Experienced in coordinating critical incident bridges, cross-functional technical teams, stakeholder communications, escalations, and enterprise application support. Hands-on experience with **WebLogic, Apache, Tomcat, Linux, Splunk, AppDynamics, AutoSys, Python, and SQL**. Currently pursuing a Bachelor's degree in **Data Science and Artificial Intelligence** at IIT Guwahati, with knowledge of machine learning, deep learning, computer vision, NLP, Generative AI, LLMs, and prompt engineering.

Education

Indian Institute of Technology Guwahati (IIT Guwahati)

Bachelor's Degree in Data Science and Artificial Intelligence

Present

India

Experience

HCLTech

IT Analyst

Sep 2022 – Present

India

Major Incident Manager

Jun 2025 – Present

- Lead major incident bridges involving infrastructure and application teams across servers, networks, databases, middleware, APIs, cloud services, and third-party integrations.
- Coordinate cross-functional technical teams, assign actions, track investigation progress, and drive high-priority incidents toward service restoration.
- Manage escalations to senior engineers, architects, vendors, and support teams while maintaining structured incident coordination.
- Provide clear incident communications and real-time status updates to leadership, impacted business teams, and technical stakeholders.
- Support post-incident reviews, root-cause identification, and corrective and preventive action tracking following service restoration.

IT Operations – ICC / Rhythm

Aug 2024 – May 2025

- Supported enterprise IT operations through **AutoSys** batch-job monitoring, incident handling, change coordination, and operational health monitoring.
- Investigated Rhythm XFER job failures, managed MAXRUN settings, monitored server and storage health, and supported reliable batch-job execution.
- Coordinated ITIL-aligned change activities and incident resolution to maintain operational stability and timely service restoration.

Middleware Engineer – Web & Application Support

Mar 2023 – Jul 2024

- Administered and supported enterprise middleware platforms including **Oracle WebLogic Server, Apache HTTP Server, and Apache Tomcat**.
- Performed application deployments, troubleshooting, service monitoring, and incident resolution across web and application environments.
- Used **Linux/UNIX, Splunk, and AppDynamics** for system monitoring, log analysis, troubleshooting, and application health investigation.
- Collaborated with infrastructure and application teams to maintain middleware availability, stability, and secure operations.

SQL Database Administration Training

Sep 2022 – Feb 2023

- Developed hands-on knowledge of relational database management, SQL querying, stored procedures, database normalization, indexing, data integrity, performance optimization, and database security.

Projects

Traffic Sign Classification | Python, TensorFlow, Keras, CNN

- Developed a CNN-based image classification system for traffic sign recognition using the GTSRB dataset containing 43 traffic-sign classes.
- Implemented image preprocessing, resizing, normalization, model training, prediction, and performance evaluation using TensorFlow and Keras.

Vehicle Detection and Counting Application | Python, Computer Vision

- Developed a computer-vision application for vehicle detection and counting using Python-based image processing and object-detection techniques.

Technical Skills

Programming & Data : Python, SQL, Data Analysis, Data Preprocessing

AI / Machine Learning : Machine Learning, Deep Learning, Computer Vision, NLP, Generative AI, LLMs, Prompt Engineering

Middleware : Oracle WebLogic Server, Apache HTTP Server, Apache Tomcat

IT Operations : Major Incident Management, Incident Management, IT Service Management, ITIL, Change Management, AutoSys

Monitoring & Systems : Splunk, AppDynamics, Linux/UNIX

Tools : GitHub, Microsoft Power BI, OpenAI Playground, Microsoft 365 Copilot, GitHub Copilot

Licenses & Certifications

- **Generative AI Prompt Engineering** – HCLTech, Aug 2026
- **LEARNING ITIL** – LinkedIn, Aug 2026
- **Claude AI** – HCL GUVI, Aug 2026
- **AI Fundamentals: Foundations for Understanding AI** – IBM, Apr 2026
- **Soft Skill – Professional Certification** – HCLTech, Apr 2026
- **GEN AI L2** – HCLTech, Mar 2026
- **Executive Diploma in Business Communication** – UniAthena, Oct 2025
- **Internship in Artificial Intelligence** – NoviTech R&D Pvt. Ltd., Aug 2025
- **Internship in Data Analytics** – NoviTech R&D Pvt. Ltd., Aug 2025
- **30-Day Master Class in Data Analytics** – NoviTech R&D Pvt. Ltd., Jul 2025
- **Start Up Seminars Series Certificate** – IITG Technology Incubation Centre (IITG-TIC), Jul 2025
- **Cloud Computing** – Agnirva.com Learning Network, Jul 2025
- **Language and Vision with AI/ML** – Indian Institute of Technology Guwahati, Jul 2025
- **30-Days Excel Crash Course** – eLearning Learning, Jun 2025
- **Generative AI Foundations Certificate Program** – upGrad, Jun 2025
- **Ultimate IT Networking Fundamentals Mastery Course** – Udemy, May 2025
- **Network Mastery For Ethical Hackers** – Udemy, May 2025
- **Oracle WebLogic Server 12c: Administration** – Udemy, May 2025
- **ITIL 4 Foundation: Key Concepts of Service Management** – HCLTech, Jan 2025
- **AI Dashboards using Microsoft Power BI** – Skill Nation, Sep 2024
- **The Six Sigma Assessment** – LearnTube.ai, Sep 2024
- **Apache Tomcat for Sys and Web Admin** – Udemy, Sep 2024
- **Chat GPT and AI Tools** – Be10x, Sep 2024
